

# Migration Evaluator

Your Entry Point to Cloud Success

## What is it?

Migration Evaluator is a **no-cost, no-risk** AWS-funded assessment tool. It's the **first step** in our Migration Success Packages (MSP), designed to help you identify cloud opportunities and kick-start migration conversations with your customers.

### Why It Matters for You (TD SYNEX Partners):

- **No Cost, No Commitment:**  
AWS-funded, making it a frictionless first step.
- **Fast & Effective:**  
Get detailed insights within days.
- **Builds Trust:**  
Provides customers with a clear, data-driven path to cloud adoption.
- **Drives Pipeline:**  
A natural lead-in to MSP stages like Design, Migrate, Manage & Optimize.

### How Migration Evaluator Works

- **Discovery**  
The customer environment is assessed using either an agentless tool or existing data sources.
- **Analysis**  
Data on workloads, resource utilization, licensing, and server dependencies is collected and processed to provide a complete infrastructure overview.
- **Business Case Output**  
A detailed business case is generated, including cost comparisons (on-prem vs. AWS), optimization opportunities, and tailored migration recommendations.

### Key Features

- **Agentless installation available**
- **Utilization and licensing insights**
- **Business case generation in days**
- **Customizable output for customer discussions**
- **Partner-led, local engagement for tighter relationships**

### What Your Customers Get:

- **A clear picture of their current on-prem environment**
- **Cost comparisons & optimization opportunities**
- **A tailored business case for migrating to AWS**
