Unlock innovation and boost efficiency with Leasing Finance

TD SYNNEX

Transform your business with leasing finance - cut upfront costs, scale effortlessly, stay current, and promote sustainability.

1. **Eliminate Upfront Capital Investment**: Transition from capital expenditures (CAPEX) to operational expenditures (OPEX), reducing the need for significant upfront investments in hardware and infrastructure and freeing up capital for other strategic initiatives.

2. **Predictable Costs**: Benefit from regular, predictable subscription fees that simplify budget management and eliminate the uncertainty of fluctuating capital expenditures.

3. **Effortless Scalability**: Seamlessly scale IT services up or down in response to business growth or contraction, ensuring your technology infrastructure matches your operational needs.

4. **Enhanced Flexibility**: Services can be quickly and easily adjusted based on evolving business requirements without incurring major disruptions or additional costs, maintaining operational agility.

5. **Stay Up-to-Date with Latest Technology**: Leasing finance allows for easier and more frequent upgrades, ensuring your business consistently has access to the newest technology without needing substantial reinvestments.

6. **Promote Sustainability**: Embrace a Circular Economy model that promotes efficient resource use and reduces the environmental footprint of IT operations, aligning with sustainability and corporate social responsibility goals.

7. **Comprehensive Disaster Recovery and Expert Support**: Benefit from robust disaster recovery and data backup solutions while leveraging specialised IT expertise and support from the service provider, which can be challenging and costly to maintain in-house.
