SONY

SONY'S LATEST PROFESSIONAL VISUAL SOLUTIONS PORTFOLIO

Streamlined design, elevated performance.

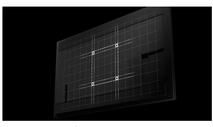

The slim, elegantly styled Pro BRAVIA BZ-P series combines outstanding 4K HDR picture quality and dependable performance with improved energy efficiency and lower ownership costs for corporate, education and retail environments.

Slim and elegant styling, designed for flexible installation, includes:

Slim new chassis design and thin, even bezels.

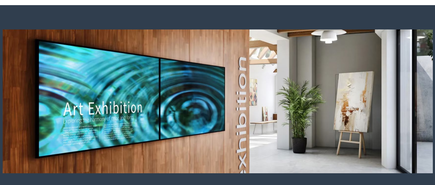

Centered bracket for horizontal/vertical mounting.

Integral handles for safe, secure grip.

Streamlined set-up, enhanced usability.

Meet the BRAVIA BZ-P series

Built around five core strengths – picture quality, installation, usability, reliability and sustainability – the three models deliver outstanding professional performance.

Case studies

Corporate

Ideal for office and corporate spaces, delivering productivity boosts only possible thanks to their incredible realism.

Find out more

Education

These displays dramatically expand pedagogical possibilities, engaging students in both practical and theoretical courses.

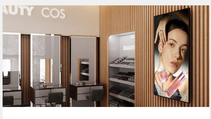

Find out more

Retail

Visual clarity brings retail journeys to life across diverse shopfronts, high-fashion outlets, restaurants, shopping centres and more.

Find out more

Signage made simple

- No set-top box.
- No extra hardware or unsightly cabling.
- Installation and operation are simplified while optimising device reliability and security.
- Seamless collaboration with leading CMS providers.
- A real-time clock keeps CMS schedules running even when the display is off.

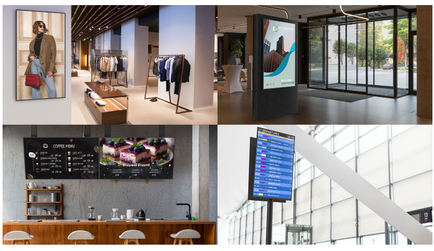

Pro Mode for quick and easy control

Ideal for fast-moving corporate and retail environments.

Start meetings fast – auto display selects the correct input source.

Prevent tampering – manage physical buttons, remote controls, inputs and selected functions.

One-step setting – optimised settings to suit regularly used apps. Choose from Signage Dynamic, Signage Standard and Meeting Room.

Pro BRAVIA BZ40P

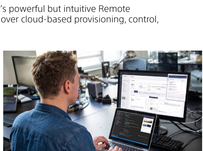

Save time with cloud-based setup and management

Native integration between Pro BRAVIA BZ40P and Sony's powerful but intuitive Remote Management System application gives you total control over cloud-based provisioning, control, monitoring and maintenance.

Zero touch provisioning

Connect Pro BRAVIA BZ40P to the cloud to allow automated setup, replacing manual provisioning for each display to dramatically reduce time and effort in large multi-screen deployments.

Remote monitoring and control

The Pro BRAVIA BZ40P can be monitored and controlled remotely. For digital signage applications, you can capture a screenshot of the display to confirm that content is playing correctly.
