From creative idea to professional content in minutes with Firefly Pro for teams

Fast, easy AI content creation for small teams and businesses.

Small teams need more content but do not always have dedicated design support. Firefly for teams helps turn ideas into finished assets, faster than ever.

One plan. More possibilities.

4,000
Generative credits each month

→

Up to 40
5-second videos*

Up to 13 mins
Translated audio*

100GB
Cloud storage

Unlimited
Standard features, such as text to image

*Examples of credit use. Actual usage depends on the feature and applicable credit rate.

Work smarter. Create faster.

From prompt to content in minutes

Teams drive the creative direction, AI accelerates the work by turning a simple prompt into a finished social post, ad or product image.

More AI models in one place

Includes Adobe Firefly models plus leading partner models, such as **Google, OpenAI and Runway** in a single subscription.

Simplified creative stack cuts costs

Bundle generative AI, **Adobe Express Premium and Photoshop** on web and mobile in one plan – no need to pay separately for design, stock photo or editing tools.

Create with commercial confidence

Trained on licensed content so teams can create and publish with confidence, without legal risk. Shared brand libraries and an Admin Console keep teams consistent and IT in control.

The easy path from prompt to polished content

GENERATE
Firefly
Ideas become first drafts

→

DESIGN
Adobe Express Premium
Structure and layout

→

REFINE
Photoshop
Polished, final asset
